

Utah Archaeological Survey Permit

Public Lands Policy Coordination Office
5110 State Office Building
P.O. Box 141107
Salt Lake City, Utah 84114-1107

Application for a permit to conduct archaeological survey under provisions of the Utah State Antiquities Act (UC 9-8-301— 308) and implementing regulations as codified in R694-1. Please include a copy of applicant's curriculum vitae and a valid agreement to curate with an authorized curation facility. For assistance with this application, please contact Lori Hunsaker, Archaeological Permitting Analyst at 801-537-9046 or lhunsaker@utah.gov.

- 1) Name, address, email address, and phone number of Applicant.

- 2) List graduate degree earned, department (Anthropology, Archaeology, or History required) and institution conferring the degree, and dates of enrollment. If the graduate degree was earned in a department other than Anthropology, Archaeology, or History, please describe the nature of your thesis and its relevance to Utah anthropology, archaeology or history. In lieu of a graduate degree, please submit evidence (the paper, report, etc.) demonstrating your ability to design and execute a research project in anthropology, archaeology, or history, including the collection and analysis of information, presentation of results in an approved and reviewed format, and the subsequent curation of specimens.

- 3) Describe full-time professional experience in the field (one year required). Note: “Full-time professional experience” means work within a position requiring responsibility for progress and completion of a project involving cultural resources (R694-1-3(b)(i). A curriculum vitae does not necessarily demonstrate that the experience was “full-time professional” in scope, please describe your specific duties, how they qualify as “full-time professional,” their duration, and list the reports that you authored as a result of this experience. In lieu of one year full-time experience, submit evidence of training related to proper methodologies for field procedures, laboratory analysis and reporting within projects involving archaeological resources. In addition, please demonstrate that the training was of a sufficient duration and a sufficiently broad scope of subject matter to substitute for a full year of full time professional experience.
- 4) Describe supervised field and analytical experience in Utah prehistoric or historic archaeology (one year required). If the applicant wishes to substitute experience gained in similar physiographic and cultural regions (i.e. Great Basin, Snake River Plateau, Rocky Mountains, Colorado Plateau, etc.) describe your experience and how it fits within all the physiographic and cultural regions within Utah.
- 5) Describe your organization or employer and the nature of organization (including address, email address, phone, and fax number)

- 6) List all projects and sites numbers initiated under previous Utah Antiquities Permits that remain incomplete at this time, describe the status of the project, and list the expected completion date.

- 7) Please attach a copy of your Agreement for Artifact Curation. Copies of Agreements for Artifact Curation will need to be provided annually throughout the term of any permit issued by the state.

- 8) Please include any other information you feel is relevant to the processing of this application.

All applications must include: applicant's curriculum vitae, and an Agreement for Artifact Curation.

Signature: _____ Date: _____
